LIST OF STREETS 1

This page has been left blank intentionally

INSTRUCTIONS

The List of Streets directory is an alphabetical list of all the streets in Western Australia in which an elector has enrolled on the State electoral roll.

How to make an Enquiry:

- To make an enquiry, ask the elector their address and look up their street in the directory.
- Locate the street and the correct locality in which the elector resides. If the street is totally within one Legislative Assembly district the enquiry ends here.
- If the street crosses over two or more districts, the lines beneath the street name will give the street number range for each district. Find the correct number range within which the elector's address is located to identify the electoral district in which they reside.
- If you are still unable to determine the elector's district, please ring the Western Australian Electoral Commission for assistance on 13 63 06.

INSTRUCTIONS FOR DECLARATION OFFICERS

1. Introduction

You **MUST** always refer to the List of Streets directory **before** you issue a manual declaration vote (Absent or Provisional vote) to an elector. The directory will specify the correct State district to which an elector's enrolled street address belongs, so that you can issue them with the correct ballot papers.

If an elector is given the wrong ballot papers, their vote will not be counted. It is **your responsibility** that electors claiming a declaration vote are issued with the correct ballot papers to enable them to fulfil their voting rights.

You will not need to refer to this directory when issuing a declaration vote using the computerised Elector Recording System (ERS).

2. List of Streets Reference Number

The List of Streets Reference Number identifies where in the directory you found the information when determining the State electoral district for an elector. It consists of the Page Number and the Line Number in the directory. The Page Number can be found on the top of the page in the middle and the Line Number is located on the left-hand side of each entry in the directory.

When issuing a manual declaration vote, you must enter the List of Streets Reference Number in the space provided towards the top of the declaration envelope.
